

Richard A. Murdoch D.D.S.

Smiles are our specialty

March 18, 2020

Our hearts go out to all those impacted by COVID-19 -this includes not only those diagnosed with the virus, but also their friends and family, those who's jobs and schools have been impacted and so many more.

The situation is changing rapidly, and our focus is, as always, on the health and safety of our patients and staff. To do our part in slowing the spread of the virus, Dr. Richard Murdoch has decided to follow the American Dental Association (ADA) recommendation to postpone elective and non-urgent care due to the recent Corona Virus outbreak. We plan to resume normal office hours on April 6, 2020. In the meantime, if you experience a dental emergency, please call our office and we will make arrangements for you to be seen.

We will continue to adhere to the CDC Guideline for infection control in our office. Please remember to use some of the basic precautions.

- Wash your hands frequently for at least 20 seconds
- Cough into your elbow instead of your hand
- Avoid crowds and avoid touching public surfaces.
- Don't touch your face, eyes or mouth. If you do, wash your hands again.

If you are over 65-70, have compromised lungs or a compromised immune system, you are well advised to follow these guidelines strictly.

We will keep you posted with new information regarding your dental care as it is available. Go to our website at www.murdochdds.com<<http://www.murdochdds.com>> for the latest information from our office.

We greatly appreciate your patience during this trying time. Please take care of yourself, your families, and your loved ones.
